TP-Link TD-W8960 Fibre configuration

Logging into the gateway:

1. Ensure your device is connected to the Router (preferably via cable)
2. Open a web browser
3. Type the following in the address bar at the top: **192.168.1.1**
4. Default Username: **admin**
5. Default Password: **admin**
6. This should then give access to the routers user interface. *
   ** (If the password is incorrect you will need to Factory Reset the router by pushing the Inset Reset button on the back for 10 seconds) **

How to add correct settings for the NOW network:

1. From the menu on the left select: **Advanced Setup**
2. From the sub-menu select: **Layer 2 Interface**
3. And then: **ETH Interface**
4. In the page: **Remove any existing ETH Interfaces**
5. Select: **Add**
6. Select an ETH Interface of: **ETH3/LAN4**
7. Click: **Apply/Save**
8. From the menu on the left select: **WAN Service**

Ensure the following settings are changed:

1. PPP Username: **(your NOW account ID)@nownz.co.nz**
2. PPP Password: **password**
3. PPPoE Service Name: **(Left Blank)**
4. Authentication Method: **Auto**
5. MTU: **1492**
6. Click: **Next**

Click through next couple of pages

1. Select: **Save/Apply**

You should now be connected to Fibre!

If your internet connection is still not working, give NOW Technical Support a call.
